<b>Inhalt</b>	In this workshop we'll have a look at how to get the best out of classroom time and how you can tweak what you already do to gain greater depth of tangible engagement and learning by students. We'll look at how to vary teacher roles in relation to emerging language and review strategies for improving routine language learning activities to provide learners with a doable learning challenge. This workshop is based "Demand High a concept by Adrien Underhill and Jim Scrivener. The goal is not to change what we already do well as teachers but to vary techniques to bring more value to lessons and learning outcomes.
