Inhalt	Writing is an important part of a learner's language development, but is often left as a homework task and not given attention it needs in the classroom. In this workshop we'll focus on some key areas to consider when teaching writing skills and look at some practical activities to use either in a face-to-face or online lesson. Note: this workshop doesn't focus on exam writing, however activities could be used in an exam course.	
Kurssprache	Englisch	
Zielpublikum	English teachers working with adult learners	
Kursziele	to introduce a variety of practical writing activities which are easy to integrate into lessons	
Methoden	Presentation and workshop formats
